And as a result –

1. Children responded well to the variety of activities that were available to them. This has led to an increase in enthusiasm and created opportunities to showcase the skills they have gained.
2. Children have been challenged outside their comfort zones as many of the children have never had access to such a variety of sporting activities. This enabled them to face these challenges by trying something new or to improve their skills.
3. Year 2 and Year 5 children had the opportunity to participate in swimming lessons, a key life skill that they should all have access to. We have enabled them to be more confident in and around water.
4. Reception children really enjoyed using the Balance Bikes. This allowed the development of gross motor skills, allowing teachers to assess their levels and progress accurately.
5. The introduction of 'Change for Life Champions' (Year 6 children) developed 'Young School Sports Leaders'. The aim of this initiative is to encourage children, who do not normally take part in after school sports activities, to get involved with sporting activities at lunchtimes.
6. The increased pupil participation in school games and competitions resulted in several different Corpus Christi teams representing the city at county level as well as at the Sainsbury's school games. The outcome of this was the awarding to the school, of the BRONZE SPORTS MARK, from School Games.
